

HEALTHCARE FOR ALL, Y'ALL

(we're already paying for it)

Do you have questions about how we could create a universal healthcare system in the US that we could be proud of that puts decisions back into the hands of patients and providers and controls costs? Come learn more about it from these excellent speakers!

Joel R. Segal

As the senior legislative aide to Rep. John Conyers, he was one of the lead staffers on the Affordable Care Act and co-authored HR 676, also known as "Expanded and Improved Medicare For All," which many health advocacy groups see as the Gold Standard for single payer legislation.

Dr. Michelle Cotton Laws, PhD, MA

As the Assistant Director of Program Development, Outreach, and Research at Community Health Coalition, Inc., which works to combat racial and income based health disparities, Dr. Laws will illuminate how political decisions and policies act as barriers to achieving health equity.

Dr. Aparna Jonnal, MD, MPH

As an emergency physician and primary care provider at a free clinic for the uninsured, she has a unique perspective on the high cost of the current healthcare "system" in terms of patient quality of life, care, and physician frustration.

November 14, 2017

Kehillah, 1200 Mason Farm Rd, Chapel Hill, NC 27514 (free parking on site)
